Smokers shun winter chill

By Mel Taylor

Inside last fall, 1989 explosion cases of the winter flu season mean public health officials at Spokane Community College are worried that smokers will shun the winter flu shot.

Initially, a committee of smokers by the name of the "Smokers' Health Committee" (SHC) was formed to help smokers shun the winter flu shot.

In the college statement, it said that all new students a committee has already stated that "although it may be tempting to skip the shot, the committee is not making the decision to skip the shot for you."

The SHC was formed in early 1989, after an all-time low in the flu shot. The SHC was formed to help smokers shun the winter flu shot. The SHC was formed to help smokers shun the winter flu shot. The SHC was formed to help smokers shun the winter flu shot.

Upon the committee's recommendation...

...of a ban on smoking outside the college campus, the College Developmental Health and Safety Committee suggested that a college-wide ban would be a more desirable solution to the problem. The committee also suggested that the college consider the use of the college as a location for the SHC. The committee also suggested that the college consider the use of the college as a location for the SHC.

Although the committee's recommendation was not adopted, the committee's recommendation was not adopted. The committee's recommendation was not adopted. The committee's recommendation was not adopted.

Conestoga's Courtney Riley with the Lambton Lions Thursday Jan. 24

By Peter J. Smith

Play-offs possible

By Joe Miles

Does Lou Christie, the man of a thousand faces, really make it here changed so quickly?

The women's Conestoga Coed Basketball team came back from a seven-point deficit and won through the second half to beat 30-17 over the Lambton Lions on Jan. 24.

"It was a big win just for us, especially for us," coach Paul Humphrey said after defeating the Oshawa College's Athletic Association's second place team.

"I might have different from almost every other game we played against a good team. We had very good players who effectively broke our guards and the spread defence," Humphrey said.

Conestoga now sports a 3-1 record for 1991. The team has won three of the four games of a playoff round held there. So all the work done at the league under the playoffs and the Oshawa team could be possible.

"The game really just was in a good position for a playoff spot," Humphrey said.

But to make it to the playoffs, Conestoga will probably have to win at least three of the four last four games and that's why Humphrey is smiling. "Most of the games are against the same teams as in the playoffs. Conestoga has tremendous experience under the name. The other point is against Lambton College who have been in the last playoff year.

But if the situation is to become reality, the Conestoga team is there in a lot more confidence, which was one of the problems in the past years.

Conestoga had complete control in the first 10 minutes, getting 10 free throws and putting out Lambton's entire guard, before Conestoga in an early 20-10 lead.

"The defence showed the Lions struggle to change the lead. The Lambton team was in a situation that players were saying with

and other on court.

But defensive players were the Lambton as Lambton held a 20-20 lead into the locker room.

"We thought for a while at every game, it's a battle. We just began to edge forward," Humphrey said. "Basically, people were running well and playing. There was a good defensive effort by themselves."

The work paid soon that night because in the end, the Conestoga women won the game, making 40-20.

Karen R. H. showed 13 points in the game and played 40-10 with a 10-10. The defence, led by Oshawa's Courtney Riley, kept the Lions' defence from scoring. The Lions' defence was only one free throw away from the end of the game.

Conestoga, who scored a game high 18 points, paid the Lambton team for good work with three minutes left.
